

MAILPIPES

Project Status Report (Short Form)

Project URL: https://mailpipes.online/	Date: May 23, 2026
Platform Status: Live / Operational	Prepared By: Development Team

Executive Summary

Mailpipes platform live hai aur iske core modules successfully kaam kar rahe hain. SMTP aur Google Mail integrations complete hain, jabki Outlook module abhi management requirements ke liye pending hai.

Key Module Updates

1. SMTP Mail Section Operational SMTP Connection: Ekdam perfect aur stable chal raha hai. Tracker Domain: Successfully connect ho chuka hai; emails proper send aur track (opens/clicks) ho rahi hain.
2. Google Mail Section Active (Under Verification) Backend Functionality: Puri tarah ready hai. Mail delivery aur tracker domain dono proper kaam kar rahe hain. Google Verification Status: App abhi Production Mode me hai aur Google Console ke official verification process me hai. Verification Note: Approval complete hote hi temporary email (vineetvineet8006@gmail.com) hat jayegi. Is compliance review me thoda time lagta hai, par live system par iska koi impact nahi hai.
3. Outlook Mail Section Inactive - Is section par abhi koi update ya specific scope receive nahi hua tha, isliye ispe abhi kaam shuru nahi kiya gaya hai. - Ye module abhi management approval/requirements ke liye hold par hai.

Status Summary Matrix

Module	Current Status	Tracker Domain	Current Action / Remark
SMTP Mail	 Live	 Working	Ready to use / Stable.
Google Mail	 Live	 Working	Awaiting Google verification approval.
Outlook Mail	 Inactive	 Pending	Awaiting management requirements.
